

Chibuzor Joel Onyedikachi

Web Developer

Nigeria, Lagos

Work experience

Frontend Web Developer Intern, Morrhtech Solutions

2022 – 2024

Developed a fully responsive e-commerce website, improving user interaction and driving customer engagement by 35%.

Collaborated with backend developers to implement dynamic product listings and a smooth checkout process.

Reduced page load time by 25% through optimizing images, scripts, and CSS.

Designed and integrated a user-friendly navigation system that enhanced the website's accessibility for over 2,000 active users.

(Technology stack: Angular Framework)

Side projects

E-commerce Website

2023

Developed and deployed a fully functional e-commerce platform using modern web technologies. The platform allows users to browse products, add items to the cart, and complete secure transactions. Integrated a responsive UI with HTML, CSS, and JavaScript, and implemented backend services for user authentication, product management, and real-time updates using Firebase. Leveraged Git and GitHub for version control and cloud hosting for deployment, ensuring scalability and performance optimization.

(Technology stack: Angular Framework)

FestBus Transportation Website

2024

FestBus is a user-friendly, Angular-based application designed to provide accurate and efficient public transportation information within the Festac area. The application allows users to search for routes between locations, view bus stops along the way, and access key journey details such as time, distance, and available buses.
